## BWT ROBOTIC POOL CLEANERS, FOR SIMPLY PERFECT POOLS

Your pool reflects your lifestyle.  
You always choose the best.  
So does BWT.

For your robotic pool cleaner, the best is the BWT **P LINE** range. Built for performance, a blend of beauty, functionality and intelligence, created for you.

# Cutting-edge Techniques and innovation

Just as Formula 1 engineers seek precision and high-performance, BWT teams work to design and create the best robots on the market.

This is why Formula 1 cars are emblazoned with the BWT livery and logo on racing circuits the world over.

*Best Water Technology, leader in water treatment and purification solutions, provides magnesium enriched water to hydrate pilots to stave off dehydration during gruelling races on white hot circuits.*

In the competition for leadership in technology and innovation, BWT robots are leading the charge.

Best Water Technology is an international group, dedicated to water and its purification. It is present in every aspect of your daily life: the galaxy of the pool, the world of the home, the hotel business, the domaine of health and industry.

FOR BWT WATER QUALITY  
IS MORE THAN A JOB,

*it is our mission*

### Unmatched suction power

BWT robotic cleaners feature the most powerful suction of any robot on the market. They can achieve up to twice the suction power through precise adjustment of the nozzles.

The closer they are to the surface being vacuumed, the more powerful the suction. Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, the nozzles can be set down low to effortlessly remove every grain of sand.

*Precision inside!*

### The finest filtration capacity on the market

BWT robotic pool cleaners are fitted with a **4D filter**, an exclusive four dimensional filter that cleans four times better than any other.

**4D Filter** technology exploits a filter fabric that features loops to capture the tiniest particles, up to 2 microns in diameter.

BWT guarantees the finest filtration currently available on the swimming pool market.

*4D Filter!*

### Ideal for your pool

BWT robotic pool cleaners are perfect for beautiful pools, of any shape or size, waterproofed with liners, membranes or tiles, and polyester pools.

With their PVA wheels and brushes, BWT robots easily navigate any type of surface.

*PVA inside!*

### Simple and practical

BWT robotic pool cleaners are intuitive and easy to use: you turn it on, and that is it.

Just like your washing machine or dish washer, you select the program Dirty or Very dirty.

Freedom is yours!

*Simplicity inside!*

### Safe and reliable

The safety of users is of utmost importance.

This is why BWT robotic pool cleaners run off a low voltage transformer and are fitted with a switch with automatic stop, as required by European standards.

The devices are also equipped with in water and out of water safety mechanisms.

### Agile on any surface, with an excellent grip

BWT robotic pool cleaners easily climb the steepest slopes. Always astonishing to see!

### Fast cleaning

BWT robots move quickly and clean fast.

They feature the intelligent and exclusive **Smart navigation system**.

Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, and then **computes the cleaning path**.

The cleaning cycles are shorter and the entire surface to be cleaned is covered.

The pool floor is perfectly clean **with a minimum number of passes**, and in record time.

*Smart Navigation!*

# BWT P LINE 500

Pool surface area	up to 80 m <sup>2</sup>
Cleaning cycle duration	2 hours
Cleaning type	Floor, walls and water line
Brush type	PVA brush + Vibrating brush
Filtration	4D Filter (x2)
Navigation system	Smart Navigation
Filtration finesse	2 microns
Drive system	Ultimate Power
Anti-tangle swivel	Yes
Cable length	18 m
Adjustable nozzles	Yes
Dimensions (L x W x H)	39.1 x 43 x 23.4 cm
Weight	11 Kg
Storage accessory	Trolley
Guarantee	3 years

## Simple and practical

### A spontaneous evening pool party

Friends let you know that they're dropping by for a drink after work and you're not home yet? In two clicks you can launch a cleaning cycle ; in as little as one hour your pool is flawless and beautiful, just like you, ready for an elegant evening hosting friends.

### Ultimate Power!

BWT robotic cleaners are extremely reliable thanks to a hard-wearing **gear** transmission, a **dual drive motor** system and a powerful **pump** to pick up debris.

This is the **Ultimate Power** system, the ideal solution for fast, optimised travel, unrivalled reliability, and unmatched cleaning.

### Energy savings

With their fast and logical travel mode and powerful suction, BWT robotic pool cleaners work fast. Cleaning cycles are short, consume less energy and yield an impeccable result.

### Ergonomic

The robotic cleaners are designed and created to be comfortable and easy to use:

- The filter is top loaded for easy access. It is fitted with a hand grip to keep your hands clean while washing the filter. In addition, you know when the filter needs to be cleaned thanks to the transparent cover that lets you monitor the fouling of the filter.
- An indicator light located on the transformer alerts you when the filter is full and needs to be cleaned.
- Transport and storage are effortless, thanks to the robust, practical and attractive trolley.
- The power cable features an anti-tangle electrical swivel that allows the robot total freedom of movement.

# *A world made for you!*

EXCELLENCE, INTELLIGENCE, INNOVATION

The BWT world is made for you, and its robotic pool cleaners are designed with you in mind.  
Don't hesitate, step into an exceptional world.
