

B LINE

The efficiency of
BWT, keeps your pool
beautiful and clean

POWERFUL, EFFICIENT, ERGONOMIC
EASY TO USE AND MAINTAIN

*Excellence
Inside*

Why a BWT robotic pool cleaner, are they the best choice?

B line BWT robotic pool cleaners combine performance, beauty and functionality, all at a very attractive price. Above all, they have one feature that sets them apart: ultra fine BWT filtration.

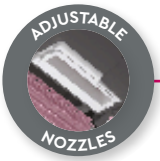

Floor, walls and water line

You want a robot that cleans the pool floor, walls and water line? The BWT B200 model is made for you.

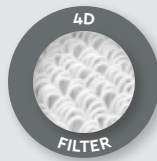

Efficient travel

With four large wheels, BWT robotic cleaners cope with any obstacles, moving easily between toys forgotten on the pool floor by your children. Simple and robust travel, perfect for a family pool.

Adjustable nozzles

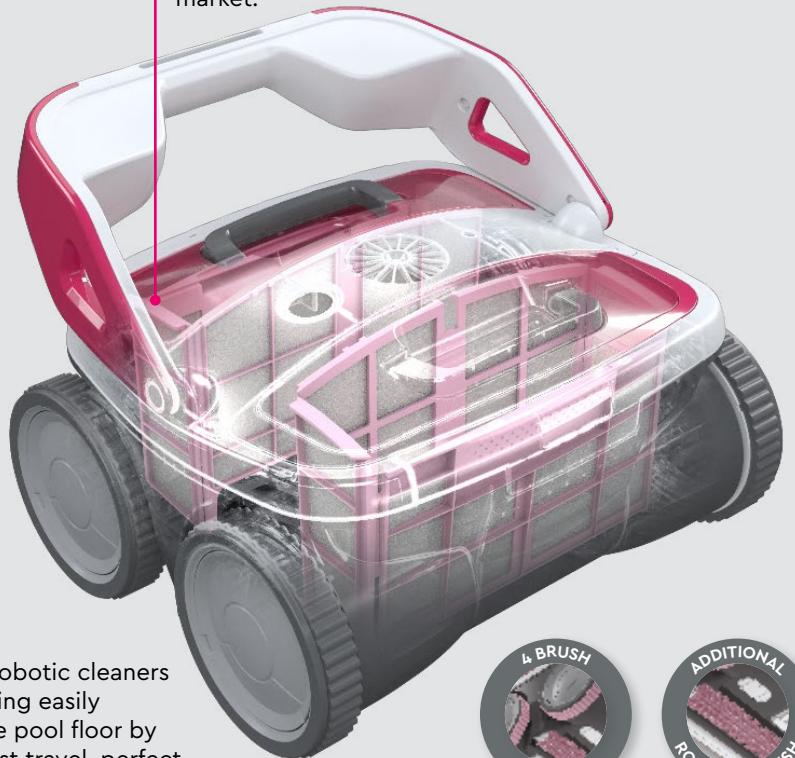

BWT robotic cleaners feature the most powerful suction of any robot on the market. Suction can be increased up to twofold, thanks to precise adjustment of the nozzles.

The finest filtration on the market

BWT robotic cleaners are fitted with an exclusive, 4D Filter that has a retention capacity four times better than any other.

4D Filter technology exploits a filter fabric that features loops to capture the tiniest particles, up to two microns in diameter. BWT guarantees the finest filtration currently available in the swimming pool market.

4 brush wheels

and additional rotating brush

The 4 rotating wheel brush dislodges deposits and leaves the surface perfectly clean.

The additional rotating brush ensures impeccable cleaning of the pool floor.

"BWT clean!"

Ideal for
above-ground
pools and
small pools

Fast cleaning

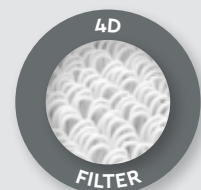

Length of the cleaning cycle: one and half or two hours depending on the condition of the surface.

Smart Navigation

BWT robots move quickly and clean fast. They feature the intelligent and exclusive **Smart Navigation System**. Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, and then computes the cleaning path. The cleaning cycles are shorter and the entire surface to be cleaned is covered. The pool floor, walls and water lines are perfectly clean with minimum passes, and in record time. "BWT fast!"

Pool surface area	up to 60 m ²
Cleaning cycle duration	1.5 or 2 hours
Cleaning type	Floor, Walls and Water line
Wheels type	4 brush wheels + Additional rotating brush
Filtration	4D Filter cartridge (x2)
Filtration finesse	Ultrafine
Anti-tangle	Yes
Cable length	16 m
Adjustable nozzles	Yes
Dimensions (L x W x H)	35.5 x 41 x 31.1 cm
Weight	10.5 Kg
Guarantee	2 years
