

MyAQUA Pure

Filter solution for your tap water

- Perfectly filtered drinking water directly from the kitchen tap for daily your use.
- The filter reduces the chlorine content in the water. Therefore the water tastes better.
- The filter reduces organic impurities.
- Suitable for original BWT MyAQUA and BWT AQAdrink filter heads.

The multiple water filtration process

- 1. Primary filtration** - filters particles, e. g. sand or rust.
- 2. Activated-carbon filtration** - reduces substances impairing taste and smell, such as chlorine and organic impurities.

Perfect filtration

Chlorine reduction

Technical Data MyAQUA Protect

Article Number		125558001-C	
Filter Capacity ¹	l	1500	
Equipment			
MyAQUA Filter Head ²		Ø 3/8" x 3/8" (male thread)	
Operating Conditions			
Working Pressure Range	bar	2–7	
Inlet Water Pressure	bar	>1,2	
Water Temperature (min. - max.)	°C	+4 to +30	
Ambient Temperature (min. - max.)	°C	+4 to +40	
Ambient Temperature Storage/Transportation (min. - max.)	°C	-20 to +40	
Nominal Flow	l/h	180	
Operating Position		vertical/horizontal	
Dimension & Weights			
	Height with wall mounting bracket	mm	300
	Height without wall mounting bracket	mm	265
Height to Center to Connection	mm		218
Ø Filter Cartridge	mm		89

¹ The indicated filter capacity is valid for standardised lab conditions. In operation the capacity can vary due to different parameters. Replace the filter cartridge when capacity is exhausted, the flow rate noticeably decreases and at least every 6 months.

² With backflow preventer and Aqastop for a simple filter change without water discharge.
