

Balanced Alkalized + Magnesium Mineralized Water

The Balanced Alkalized + Magnesium Mineralized Water filter cartridge increases the pH value of the tap water to a value between 8 and 9 *. Alkaline water makes an essential contribution to maintaining physical well-being by helping to keep the acid-base balance in balance. With 2.5 liters* you support your body in a simple and effective way and cover up to 20% of the daily magnesium requirement.

* at an average water hardness of 15–18 °dH

+ the environmentally friendly alternative to plastic bottles

ADVANTAGES OF BALANCE + MAGNEISUM IN DRINKING WATER

- + The special filtration technology turns tap water into alkaline water.
- + The higher pH value of the alkaline water supports the regulation of the acid-base balance in the human body and supports the protection against hyperacidity
- + Optimized for a nutritionally conscious lifestyle and promotes general well-being.

ADVANTAGES OF THE FILTER TECHNOLOGY

- + Reduces odor and taste impairing substances such as chlorine and organic impurities
- + Reduces particles > 200 µm (sand, particles from the pipe) and heavy metals (lead and copper)

Balanced Alkalized + Magnesium Mineralized Water
